

There has never been a better time to get an Enphase Battery

Cash back from your utility company: Yet another reason adding a home battery to solar makes good financial sense.

Early adopters earn more.

The first customers accepted into the Battery Bonus program will receive \$850 per kilowatt of capacity that can serve the grid during a fixed two-hour period each day. This \$850 per kilowatt incentive decreases to \$750 and then \$500 per kilowatt as more systems are added to the program.

For example, participating Encharge 10® batteries with continuous power output of 3.84 kilowatts (kW) could earn up to \$3,264 from the program. In return for the incentive, participating Enphase Storage systems export energy to the grid during a two-hour period each day (between 6 pm and 8:30 pm). This occurs automatically, and participants otherwise enjoy any remaining energy of the Enphase Storage system.

Add more solar.

If participants are existing HECO Net Energy Metering (NEM) customers, by enrolling in the Battery Bonus program, you are also eligible to add up to an additional 5 kW of solar capacity to your roof. In Hawaii, this can reduce the overall payback period of the system by offsetting more of your electricity costs with solar, which can result in larger savings.

Incentive amounts, enroll early to earn more.

First 15 MW (\$850/kW)

\$1,088

Encharge 3 (1.28 kW)

\$3,264

Encharge 10 (3.84 kW)

\$4,352

Encharge 3 + 10 (5.12 kW)

Second 15 MW (\$750/kW)

\$960

Encharge 3 (1.28 kW)

\$2,880

Encharge 10 (3.84 kW)

\$3,840

Encharge 3 + 10 (5.12 kW)

Last 20 MW (\$500/kW)

\$640

Encharge 3 (1.28 kW)

\$1,920

Encharge 10 (3.84 kW)

\$2,560

Encharge 3 + 10 (5.12 kW)

Why Enphase Storage?

Low voltage. High safety.

Enphase Storage operates with low-voltage DC power, avoiding the dangers that come with high-voltage DC power.

Power you can tap into.

Enphase Storage is managed by our beautifully designed app, meaning you're just a tap away from tracking how much energy you've saved, managing how much energy is available for backups, and more.

Smart power.

Enphase Storage is smart enough to update itself automatically over the internet to deliver the latest software and new features

Load Control.

Turn power-hungry appliances on and off automatically or manually from the Enphase app to conserve your battery life when running on backup power.

Start now.

Incentives are limited in the Battery Bonus program. Maximize your incentive by starting today.
